

# Shopping with Mom

I love going to the grocery store with my mom because I get to be mom's little helper. I help find the shiniest apples and put them in a bag and I even get to help pick things off the shelf like cereal and soup.

I practice my colors and counting and I learn about all the different kinds of foods people like to eat. Sometimes there are even free samples. Yum! Going to the grocery store is not only a lot of fun, but it's also a great way to learn about so many different things.

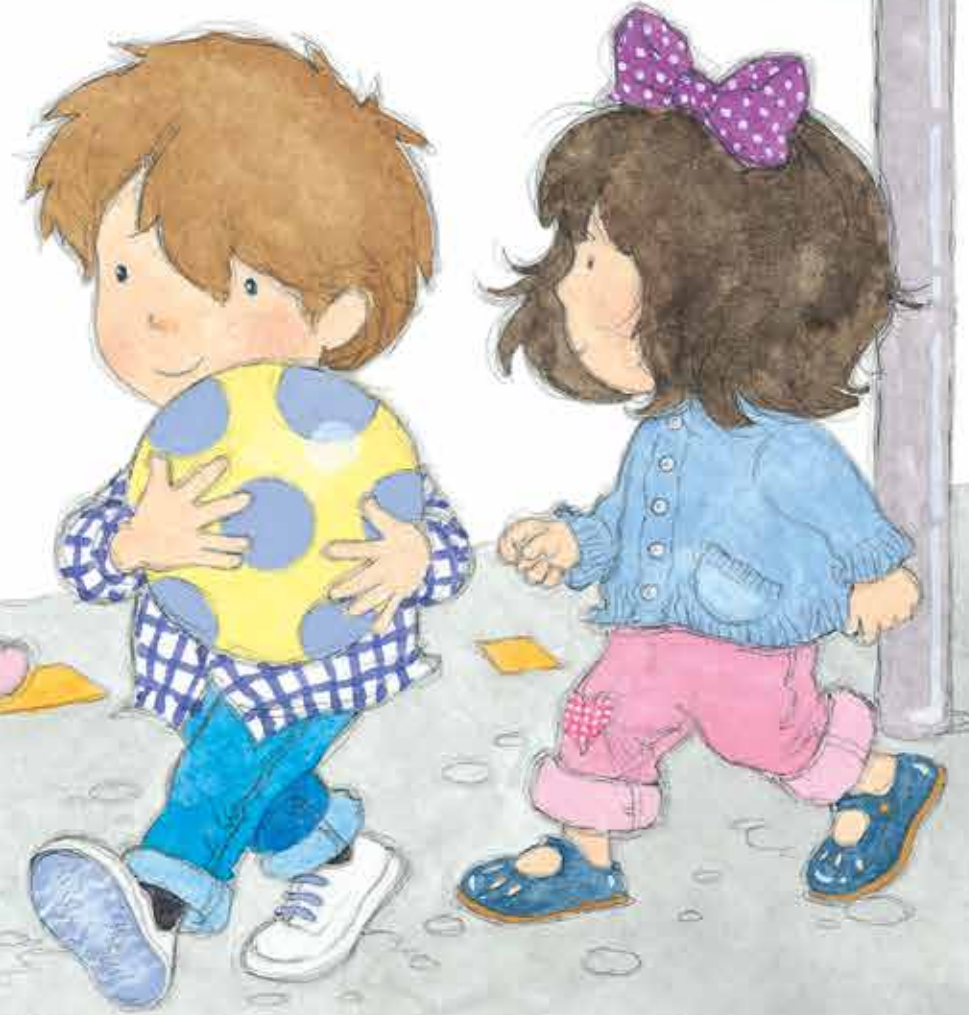

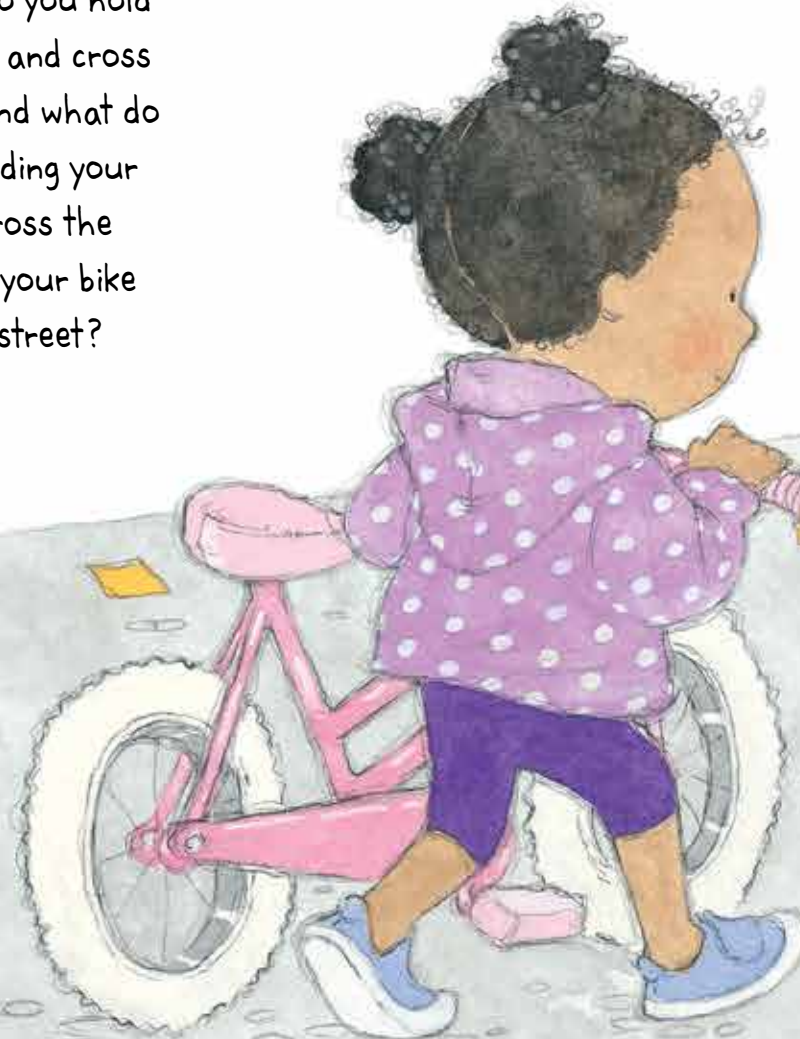

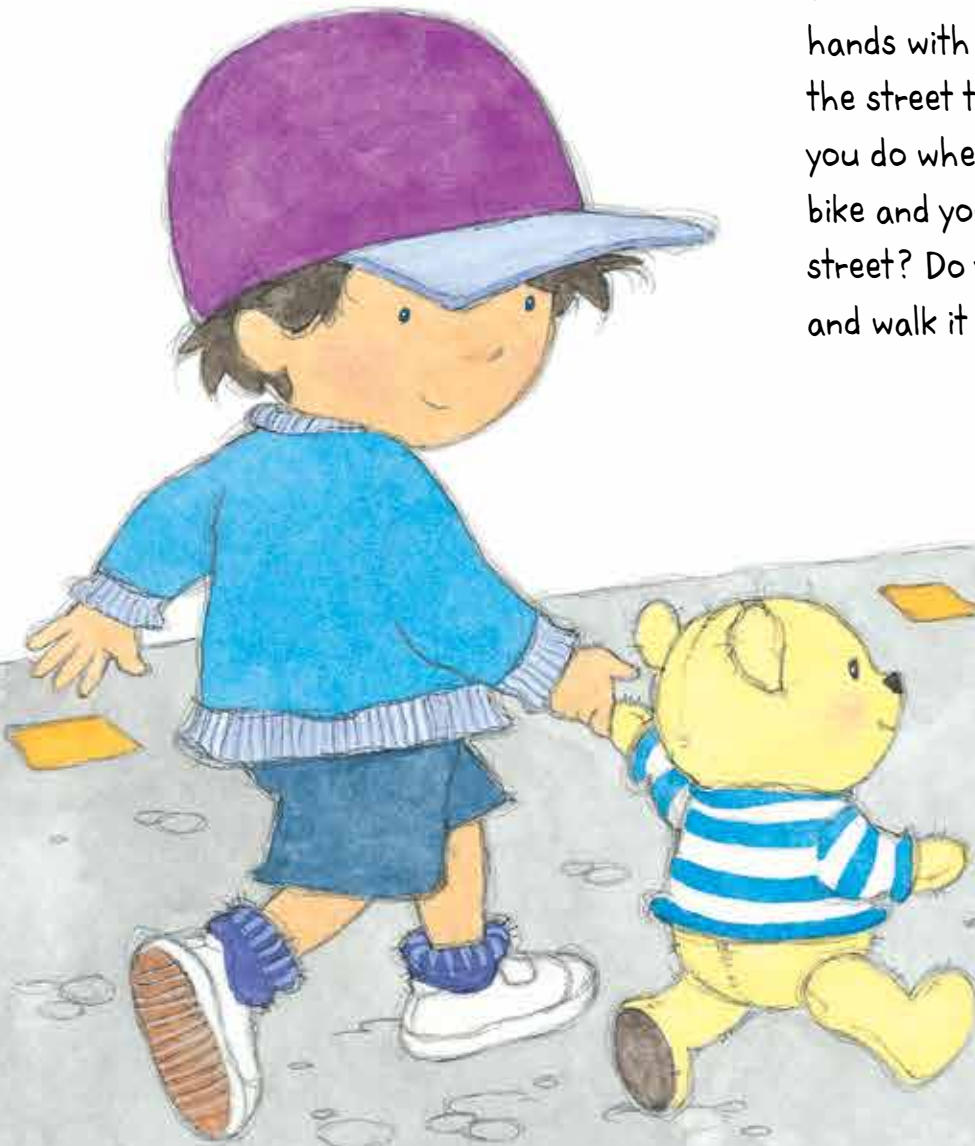

Do you like going to the grocery store?

# Be Safe when You Cross the Street

What do you do to stay safe when you cross the street? Do you stop and look both ways? Do you hold hands with a grown up and cross the street together? And what do you do when you are riding your bike and you need to cross the street? Do you get off your bike and walk it across the street?

And if there are stop lights, do you always cross the street when the walk sign or green light tells you that it's safe to go?

Be safe when you  
cross the street;  
follow the rules!

# Detective Dave!

Detective Dave loves to go on adventures. With a bug catcher, a magnifying glass and his handy dandy book, he's ready to explore. There's the forest, the playground and even his own backyard.

Just think of all the sounds and smells out in nature. And there are so many things to look at, like holes in trees, critters in the grass and even the flowers in the ground and the leaves on the trees. Exploring is fun! Just be safe.

Where do you like to explore?
