

Look at this fantastic tree! It is a special tree,  
because real trees do not have names or  
pictures hanging from them.

This is Martin's family tree. You can see all the  
people in his family and some of his ancestors.

?

Ancestors are those people in your family who were born before you were: your grandparents, your great-grandparents, your great-great-grandparents...

They are very special people because they are part of your life and your past history.

Martin's paternal grandfather, that is, his dad's father, came from Japan when he was young. A few months after his arrival he met Grandmother Margaret. They liked each other so much that they got married. They had three children: Aunt Helen, Uncle Paul, and Martin's dad.
