Vacations are over and
the weather is
cooler.
Guess which
season it is.

There are four seasons:
winter, spring, summer,
and . . .
do you know
the last one ?

When fall arrives,
the world wears
all kinds of colors.
You know all these
colors,
don't you?

How about picking up leaves from the ground
and making a picture with them?

Going back to school is
fun and so is singing songs
about the new season and
going to the woods looking for
chestnuts.
