

It's *cold*, it's cloudy, and there is a gray wet haze that covers everything. It is the coldest season of the year and it comes after fall. Can you guess which one it is?

*It's snowing!
In a few hours the
landscape will be all
white.*

*We can go outside and
build a snowman. We'll
have to wear gloves,
because snow is very,
very cold!*

*It is so cold that water freezes
in lakes and rivers.
Where do fish go then?
If you look carefully, maybe you'll see one!*
