

A very special present

Marcos and Ana's parents want to bring a small pet home. They've thought about it very hard, consulted their friends and have finally decided to buy a guinea pig. It's a very peaceful and tame animal, it's easy to look after and it's also a very pretty. What a great joy for the children when they discovered they would be getting a pet! Or maybe two...

Many different guinea pigs

- There are many different varieties of guinea pig. Some are just one color: White, black, golden, silver... Others are a mixture of colors: With two or three colors combined, with small "patches" of color around their eyes, the feet a different color to the rest of the body... They can also be distinguished by their coat: They usually have short hair, while others have long hair, cowlicks or crests... Furthermore, they can have straight or curly hair... There's even a bald variety!

Let's go and get them!

The day has come to choose the guinea pigs. These little animals love company and so Ana and Marcos are going to get a pair. In the shop, they were advised to take two sister guinea pigs. The children didn't even take five minutes to choose their new pets. They liked two very young ones they saw in the show cage. The man in the shop confirmed that they were "girls" and then after checking that they were healthy, he gave them to the children in a small carrying box. They couldn't wait to get home and put them in the cage they had prepared for them!
