# Clown Fish
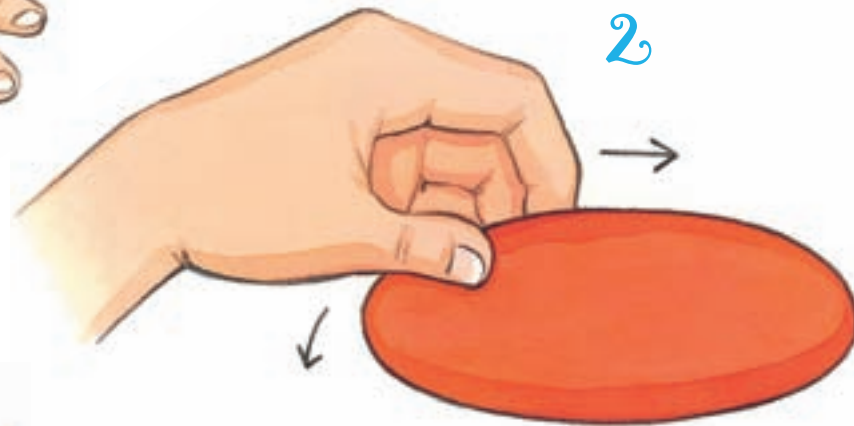

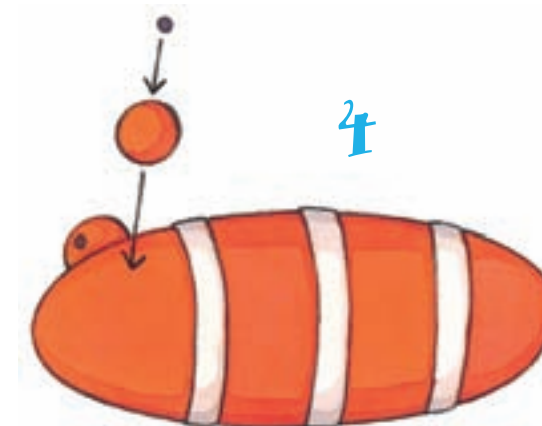

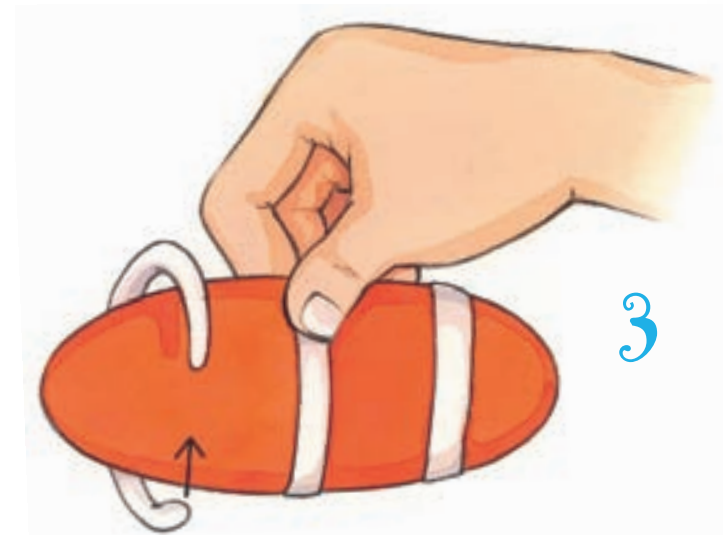

1. Make a ball, stretch it a little and flatten it with the palm of your hand.
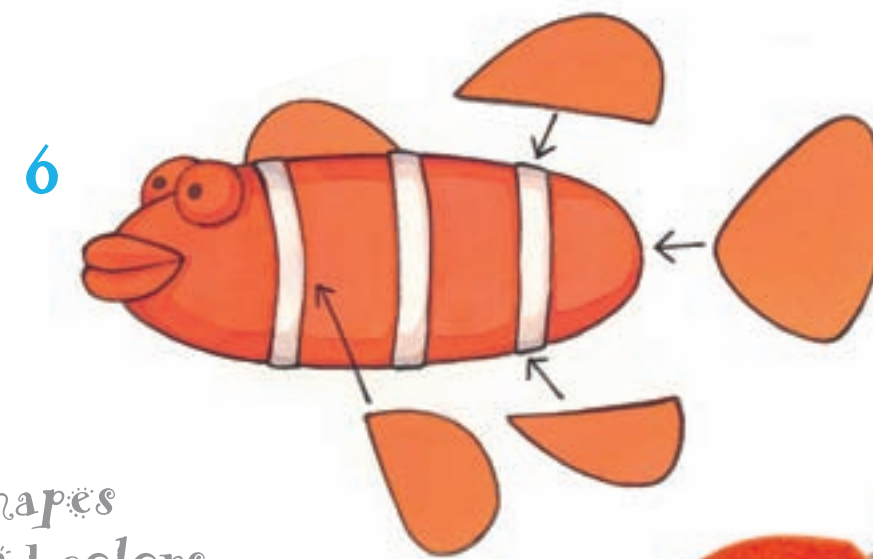

**1**

**2**

2. Thin the edges with your fingers.

3. To make the stripes, wrap white sausages around it and flatten them with your finger.

**3**

**4**

4. For the eyes, stick two black balls onto larger orange ones and press them firmly.

5. Make two sausages for the lips.

**5**

**6**

6. Cut the fins out from a piece of cardboard and stick them into place.

## Shapes and colors

In the sea, there are many fish with different markings: Spots, patches, zigzag stripes...
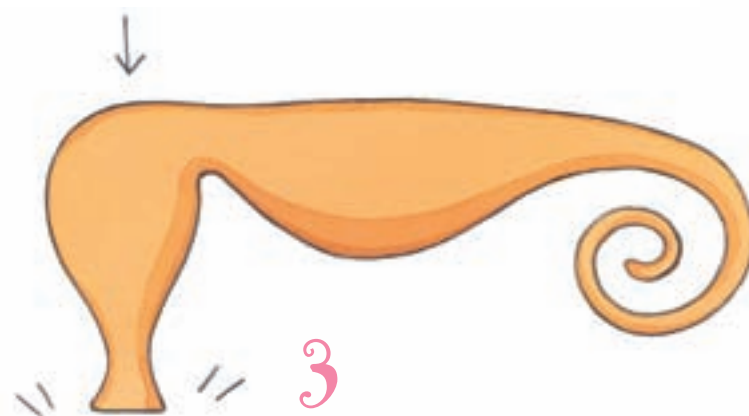

# Seahorse

## 1

1. Make a sausage and narrow it in the middle and at both ends, as shown in the drawing above.
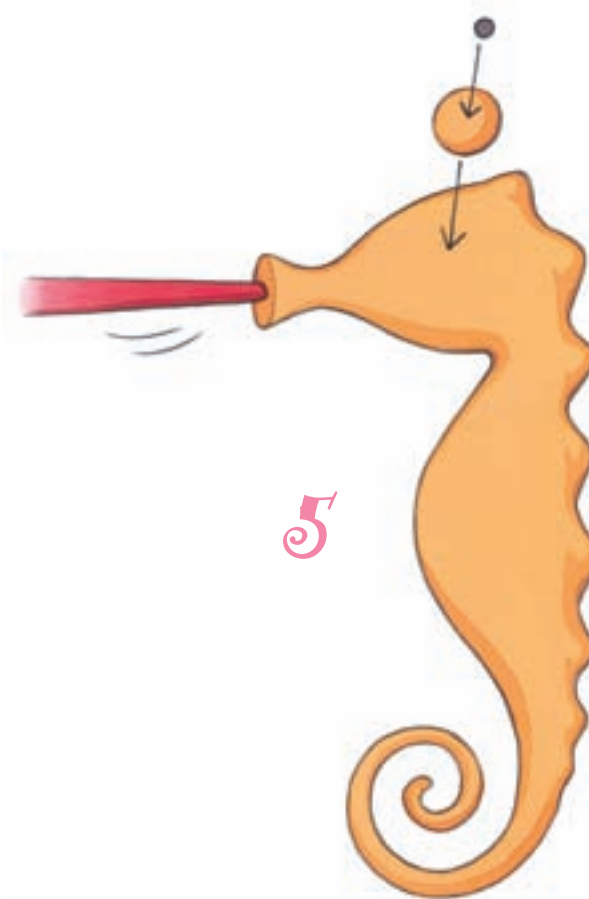

2. Bend the head 90° and roll the tail inwards.

3. Hit the snout against the table to flatten it.

## 2

## 3

### A peculiar fish

The seahorse, with its strange appearance and upright swimming position is one of the strangest fish found in the marine world.

4. With your fingers, pinch the seahorse's head and back.

## 4

## 5

## 6

5. Make a hole for the mouth with a plasticine tool. To make the eyes, stick small black balls onto larger ones the same color as the seahorse.

6. To decorate it, mark circles with a straw. Finally, stick a cardboard fin onto its back.
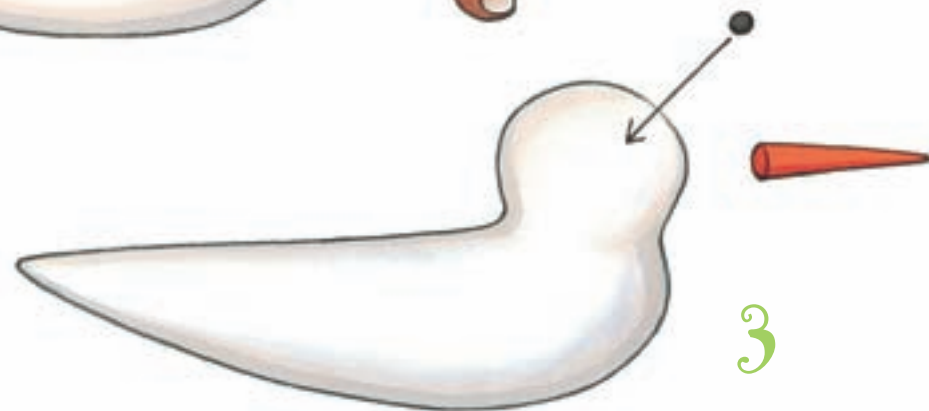

# Seagull

1. Make a point on a white sausage, make a ball and join the two pieces together using a piece of toothpick.

2. With your finger, secure the join well and shape the neck.

*1*

*2*

3. Stick two small black balls onto the head for the eyes. For the beak, place a sharpened sausage onto the head and flatten it well with your fingers.
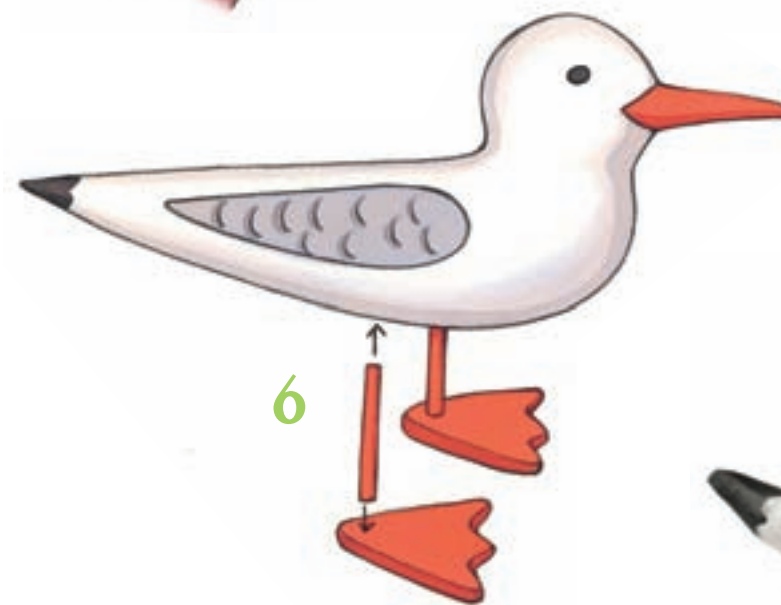

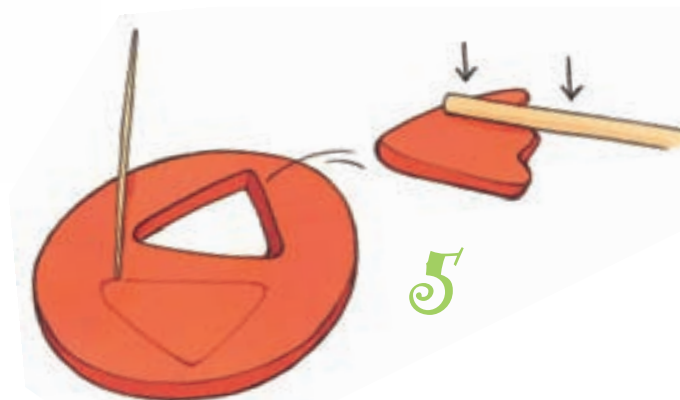

*3*

4. Stick a piece of black plasticine on the tip of the tail. To make the wings, flatten a sausage of gray plasticine. You can create the feather texture with your fingers.

*4*

*5*

5. For the feet, make an orange slab, draw two triangles and cut them out with a stick or plasticine tool.

6. Paint two pieces of skewer orange and stick them into the feet. Then place them underneath the seagull so that the animal stands up.
