

I know that doing well at school and studying hard is a good idea but sometimes learning and studying isn't any fun at all! Sometimes it's even boring and other times it's just way too hard!!!

What do you like best about school besides recess and lunch?
The part I like best about school is when we learn about
something really cool like volcanoes or dinosaurs or when
we learn how to play different kinds of instruments like the
flute or the trumpet. That's when school and learning is fun!

A few days later when the day came for me to take the multiplication test, I was scared. I didn't want to let down my teacher or my parents or even myself. I wanted to prove to everybody that I could do it. When the teacher handed out the test and the class was told to begin, my head went blank and I couldn't remember anything. I started to panic!
