

Some very creative presents

Lola already knows what some of Nicolai's birthday presents will be: Irene will give him a chocolate, cheese and strawberry cake; Miriam will give him a photograph where she will have written "may the sea always be with you"; and she, Lola will give him a precious fantastic and marvelous green bag to carry all his stories in.

But, what will the rest of the guests give him? Will they also give him presents they have made themselves?

A hairdresser with ideas

Alex decides to invent a hairstyle for all of her friends. Some have short hair; others have longer hair; some have straight hair and others have curly hair. Alex always brushes her dolls' hair very well and gives them very cute hairstyles with hair bands, slides and clips. But... her friends surely won't let her give them such extravagant hairstyles!

Luckily, the light bulb comes on... Let them all wear a hat!

Making a present

Nicolai's friends have worked so hard to prepare this birthday party. It's not at all easy to give a present: You have to think hard about the things that your friend likes, about the things that you can do the best and above all, you have to spend a long time doing them in the best way possible.
